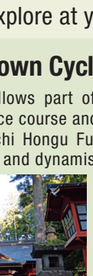
Cycling rules

Bicycle rules

1. Bicycles are vehicles; as a rule, ride on the roadway and keep to the left.
2. Obey traffic signals and always come to a complete stop at stop signs.
3. When riding on bicycle lanes or shared paths, always give priority to pedestrians.
4. Using mobile phones, loud headphones, or riding with an umbrella is prohibited.
5. Riding under the influence or carrying passengers is strictly prohibited.
6. Riding side by side is prohibited; ride in single file.
7. Turn on your lights at night and in tunnels.
8. Enroll in bicycle insurance. (mandatory by local ordinance)
9. Wear a helmet.
10. Perform regular bicycle maintenance and inspections.

Important notes for cycling around Mt. Fuji

1. Control your speed on long downhill sections; sudden braking is strictly prohibited.
2. Temperatures drop at higher elevations, so bringing wind-resistant outerwear is recommended.
3. Weather can change suddenly in the mountains; avoid pushing yourself.
4. Roads may be snow-covered or icy in winter.
5. Some sections are steep, so riders unsure of their fitness should consider using an E-bike.



National AED Map

By linking with smartphone GPS, you can quickly locate nearby AEDs in an emergency. This is the only registered AED map based on Ministry of Health guidelines, not a user-submitted map.
